Hallo dear MMMonVHF friends,

please find below our lastet NEWSLETTER from the VHF-DX-Portal
"Make More Miles on VHF" (www.MMMonVHF.de), dated 2011-05-26
We attempt to distribute our Newsletter, once a week (thursday)
from now on - if any special activities will make it necessary
we will inform you with Breaking News or a Special NL-Edition.
For further detail please be so kind and watch our "News"-page
http://www.mmmonvhf.de/latest.php - you vy welcome for any
input and we do hope you will enjoy the VHF-DX-Portal MMMonVHF!

** Software update VK3UM EMECalc v 7:10 **

Gentlemen EMECalc v 7:10 is now available from www.vk3um.com
This release includes provision for varying the Solar Flux (sfu)
value and refinements to Sky Noise, Beam Fill factor, and sfu
interpolation values above 10GHz. For a more detailed description of
the changes please refer to
http://www.vk3um.com/Reference%20Data/EMECalc%20v710_Supplementary.pdf
The web site has also been updated to include additional information
regarding the programming and interface connections to some versions
of the FE 5680A Rubidium Standard as well as a method of rejuvenating
Rubidium Lamps. Finally for those of you that may contemplating EME on
higher frequencies and have not seen Graham F5VHX 3 dimensional Dish
Installer Software, I have included it for your enlightenment at
http://www.vk3um.com/Reference%20Data/F5VHX%20Dish%20Installer.pdf

Finally today, 21st May 2011 I can inform you that my eme station
is ready to bring Kazakhstan (UN) to the moon. Here are already
active stations, but I will add some activity and probably 70cm band
to the moon. I build up a 4x11el group for 2m and to the moment a
2x23el group for 70cm. As soon as I get the missing 23el antenna,
which they failed to send me last time, I will have a 4x23el group
for 70cm. After moving from Tashkent/Uzbekistan to Astana/Kasakhstan
end of september 2010 I am still busy, in the job as well as at home.
All qsl cards I received until july 2010 I answered. Those I received
later still have to wait, but will be answered now in summer! I hope
that I can bring UN to many of you and soon also on 70cm. gl and see
your dots on the screen ...

** T8 qrv - Koror Island, Republic of Palau, PJ77 **

Taka JA0BJR, Toshi JP1IOF and Toshi JE1SYN plan to be active from
Koror Island, Republic of Palau (IOTA OC-009, WW Loc. PJ77FI), as
T88ZA, T80T and T8YN respectively on 24-27th June 2011. Look for
them to run two stations on 80-6 metre SSB, CW, FM, RTTY and PSK31
(5 element yagi on 6m). QSL via home calls.
SOURCE: [dx-world.net] via ICPO Bulletin (20-27 May 2011)

** FP/K9OT qrv from GN17 again **

Paul, K9OT and Peg, KB9LIE will once again be active as FP/K9OT from
Miquelon Island (IOTA NA-032, DIFO FP-002, WLOTA 1417, WWLoc. GN17TC)
between 21st July and 4th August 2011. QRV on 80-10 metre W and SSB.
QSL via LOTW, bureau, or direct to K9OT (return postage required for
direct). Website: www.hamradio.pnpfarms.com/
SOURCE: [NG3K] via ICPO Bulletin (20-27 May 2011)

** MD9Y, qrv from the Eary Cushlin House, IO74 **

A group of members from the Club DARC in Germany (section P08-OV
Nurtingen) will be staying on the Isle of Man (IOTA EU-116, WLOTA
0449) from 7 July till 15 July 2011 in the Eary Cushlin House,
located on the south west cost of the island (WW Loc. IO74PD).
Operators include Pit DL1SPH, Gunter DK1SG, Bernd DH1SBB, Gertraud
DC5SAN, Guenther DG1SBU, Guenther DG7SF and Erwin DL6SBN. QRV from
80m to 6m using PSK, RTTY and SSB, using MD/homecalls. They will also
participate in the IARU HF Championship (09-10 July), using the

callsign MD9Y, as a SSB only entry. QSL MD9Y direct via GD3YUM
(Martyn Parnell, 1 Derwent Drive, Onchan, Isle of Man IM3 2DF).
QSL others via their home calls, direct or by the DARC bureau.
SOURCE: [rsgbiota.org] via ICPO Bulletin (20-27 May 2011)

** FS/K9EL on the air on HF and 6m **

I will be operating FS/K9EL June 7-19, 2011. I will be using an
IC7000 and verticals for 10-80 and a 3 el yagi for 6m. I will be
operating CW, SSB & some RTTY. QSL to my home call. LOTW update will
be done upon my return. I may do some 6m operation from PJ7. 73
SOURCE:John K9EL via GOLIST

** J48O from Othonoi islet, HF and 50 MHz **

Operators SV2AEL, SV2CLJ, SV2FPU, SV2HXV, IK0EFR, SV2YC and SW2HXR
willbe active as J48O from Othonoi islet, EU-052 between June 17 to
25, 2011. They will live and operate in the island lighthouse of
Kastri. Look for them on 80-6m, focus on 6m during peak season. CW,
SSB, Digi. QSL via SV2FPU. SOURCE: dx-world.net

** Bonaire again in the air with PJ4E **

PJ4E Bonaire will be on six meters from approximately June 4th to
June 19th. We will be operating in the attended beacon mode. The
frequency will be 50.103 since we will be there ahead of the other
PJ Caribbean DX-Peditions. There will be some HF operation, mainly
RTTY but six meters will always be on the air. Operators will be W0SD
Ed, W0OE Edith and PJ4NX Peter. The QSL manager will be W0SD.
Unfortunately Arliss W7XU and Holly N0QJM will not be on the trip
this year due to work conflicts. A later announcement will be made
in regards to on line logs. The operation will be from a rented house
and will be our normal six meterset up with a good antenna and power.
73 and see you on six Ed W0SD.

** "Mother of All 6m Grid DXpeditions" starts this week! **

Interior-West DXpedition: 25 May - 10 July; Operating from 90 grids
and transiting 30 more. Starting Thursday 26 May, David Schaubert,
NJ0W, will begin a 46-day 6m Grid DXpedition covering 90 different
grid squares in the Rocky Mountains, Southwest Deserts, and Great
Plains. Over 400 hours of operating time have been planned. Within
his scheduled hours of operation, David will operate WSJT modes
(mostly FSK441 meteor scatter) when there is no sporadic-E happening
at his location, and SSB/CW when there is. See David s web page at
http://www.6t6kix.com/pages/ham/nj0w.htm for complete details, as

well as for unanticipated updates to the schedule due to the always-
entertaining antics of the ubiquitous Mr. Murphy. Time is a critical
commodity for WSJT meteor-scatter operation because the technology
is speed-limited by its inherent design. Therefore, please READ AND
RE-READ David s published WSJT operating procedures on the above page
DON T WASTE EVERYBODY S TIME by not knowing what you re doing!! If
you have questions, ask them now on the FFMA or WSJTGROUP list. If
you re not an FFMA or WSJTGROUP subscriber, go to:
http://groups.yahoo.com/group/FFMA or
http://groups.yahoo.com/group/WSJTgroup and sign up. Don t cross-post
replies or questions to all five boards listed in the TO header, as
this will generate list traffic that will be unappreciated by many.
Wishing David and all of us the best of luck!
SOURCE: Bill W5WVO via WSJT Reflector

** DX Operation: Bermuda, VP9GE **

Doug, KF4VTT, will be visiting Bermuda June 10-17, 2011 and staying
at the QTH of VP9GE. Although this is not a true DXpedition, Doug
will utilize 160M-6M on SSB, CW, RTTY and possibly PSK31 when time
permits. His XYL and son will be accompanying him, so Doug will need
to be fair about the amount of time spent on the air. As a personal
goal, he hopes to finish DXCC and VUCC from VP9. Any help with this
endeavor would be appreciated. Doug also hopes to be active on
6 Meters during the ARRL June VHF QSO Party on June 11-13. QSL OK
via KF4VTT by Bureau, direct or LoTW.
http://home.mebtel.net/~kf4vtt/vp9/VP9.htm
SOURCE: Doug, KF4VTT, via NG3K DX News

** DX Operation: Montserrat VP2MRT **

Operating june 8th till june 18th on 40m thru 2m depending on condx
as VP2MRT. Will operate the June VHF Contest. QSL via KB4CRT direct
with SASE or GS. LOTW later, no eqsl.
SOURCE: KB4CRT, John, via NG3K DX News

** Nine Grid Squares active on 4 Bands **
(EM52-EM62-EM63-EM64-EM73-EM74-EM75-EM84-EM85)

Our objective is to activate nine maidenhead grid squares across the
states of Mississippi, Alabama, Tennessee, North Carolina and Georgia
during the 2011 ARRL June VHF QSO Party. Our theory of operation will
be on the "Run and Gun" aspect in the Limited Rover category with a
effort on using CW and JT65a during times when the bands are not open.
We will be stopping at several very high spots to try and work
stations direct. We will also be beaconing AD5OW-12 on APRS via the
Droid APRS Software so look for us there as well. We will be Calling
CQ a lot on the published frequencies below and periodically on the
calling frequencies. For JT65a (Tropo) and FSK441 (Meteor Scatter),
we will be calling CQ on the standard 50.260 and 144.140 MHz and

listening DOWN 6khz for replies. Route Stops: (A detailed route map
can be found on our website. The URL is below.) Gadsden, AL (EM64xa),
Lookout Mtn, GA (EM74hu), McCamy Lake, TN (EM75qd), Hayesville, NC
(EM85ba), Brasstown Bald, GA (EM84cu), Mt. Cheaha, AL (EM73cl)
Operating Frequencies:
Band, CW, SSB, Digital
(A) 50 MHz 50.096   50.133   50.260 CQD6 FSK441 & JT65a
(B) 144 MHz 144.196 144.206 144.140 CQD6 FSK441 & JT65a
(C) 222 MHz 222.096 222.106
(D) 432 MHz 432.096 432.106
Please check out our AD5OW/R VHF/UHF Rover web page at
http://www.ad5ow.us/Rover.html for the latest information.
73's de Jim, AD5OW and Jeffrey, N5TIT - The AD5OW/R Rover Team
SOURCE: tnx to Andy, N8OFS, direct to MMMonVHF

** Trip to DM57 / DM56 **

I will be operating from DM57 for the weekend of Jun 3 - 5. I expect
to be set up and on the air by late in the afternoon on Friday and
will tear down to return home after M/S stops on Sunday AM (unless we
get significant Es - then I'll stay as late as I can). I may stop
briefly in DM56 on the way home - timing will depend on how the band
was in DM57. If the band is good in DM56, I will stay there as late
as I can. I will be following the same procedure as NJ0W on his web
page (see http://www.6t6kix.com/pages/ham/nj0w.htm) except I will be
QSYing up to 50.270 (if this is a bad frequency, please let me know). I'm not sure about Friday
evening, but I expect to be on the air Saturday and Sunday starting about 1200Z.
I will only have 100 W and a 3 el yagi at about 25'. Es openings will
take precedence over M/S. I will not have Internet access and I don't
expect to have cell service. If you have a request for a specific time
or frequency, please send me an email and I'll see what I can do.
Please keep me busy! 73 Bud - SOURCE: Bud, N7CW via [wsjtgroup]
